ARRA funds at NREL

Summary of funds received as of August 17, 2009

Amount (\$)	Project Title	Description
Construction Funds		
67,698,000	RSF II	Building the second phase of the Research Support Facility for NREL and GO staff (the first phase is under construction)
10,800,000	IBRF II	Building the second phase of the Integrated Biorefinery Research Facility for additional processing capability, research and office space
78,498,000	Construction subtotal	
Operating Funds		
3,231,000	WIP support	Technical support for DOE's Weatherization and Intergovernmental Program
2,899,000	Solar Decathlon	Event infrastructure, event services and micro-grid installation for U.S. DOE collegiate competition in Washington, DC
8,034,000	Office of Science	Initial funding for Energy Frontier Research Center projects Catalytic conversion of Biomass to biofuels— Purdue Low-cost solar cells — UCSB Hybrid solar electric materials — Univ. of Arizona
12,500,000	Solar incubator	Enable small businesses to accelerate prototype and pre- commercial technologies to pilot and full-scale production
800,000	Grid simulator	Evaluation of different grid integration system architectures and components with different penetration levels of renewable technologies.
4,500,000	Ethanol blends	Testing of higher intermediate ethanol blends on engines and infrastructure.
260,000	Technical support	Technical support to DOE/Treasury for Section 1603
667,000	EECBG support	Technical support to the Energy Efficiency and Conservation Block Grant program
2,265,000	Bio Systems Integration	Integrated project analysis and technical reviews for Biorefinery operations in pilot and demonstration scale
50,000	GO support	Technical support to the Golden Field Office for merit and technical reviews in various topical areas
33,000	ARPA-E	Technical support to ARPA-E
35,239,000	Operations subtotal	
113,737,000	FY 09 Total	More funds are anticipated this year.
